EDUCATION

Chitkara University

Bachelor of Engineering in Computer Science, **GPA: 8.74/10.00**

Rajpura, Punjab

Sept 2021 – July 2025

- Relevant Coursework: Data Structures & Algorithms, Database Management Systems, Operating Systems, Computer Networks, Software Engineering

TECHNICAL SKILLS

Languages: JavaScript (ES6+), Python, Java, C++, SQL, HTML5, CSS3

Frameworks & Libraries: React.js, Node.js, Express.js, Redux, Tailwind CSS, REST APIs

Databases: MongoDB, MySQL, Firebase

Developer Tools: Git, GitHub, Agile/Scrum, Figma, Stripe API, OAuth

Core Competencies: Full-Stack Development, System Design, Performance Optimization, Responsive UI/UX, Authentication & Security

EXPERIENCE

Software Engineer

AagatiServe (TalentSkout)

Nov 2025 – Present

Gurugram, Haryana

- Architected and deployed scalable React components serving 10,000+ users, improving platform stability and user satisfaction
- Optimized frontend performance through code splitting and lazy loading, reducing initial bundle size by 25% and improving load times
- Collaborated with cross-functional teams using Agile methodologies to deliver features 15% faster than projected timelines
- Implemented comprehensive error handling and logging mechanisms, reducing production bugs by 30%

Frontend Developer Intern

AagatiServe (TalentSkout)

Aug 2025 – Nov 2025

Bengaluru, Karnataka

- Built responsive UI components using React, HTML5, CSS3, and JavaScript, achieving 15% improvement in mobile usability scores
- Translated Figma designs into pixel-perfect, reusable code within Agile sprints, ensuring 100% adherence to UI/UX specifications
- Resolved 25+ critical frontend bugs through systematic debugging, optimizing rendering to decrease page load times by 10%
- Integrated REST APIs with Node.js backend, implementing efficient data fetching patterns and state management with Redux

Campus Ambassador

TechLearn.live

Feb 2022 – Apr 2022

Remote

- Promoted edtech workshops and coding bootcamps to 150+ students, increasing event participation rates by 20%
- Analyzed feedback data to optimize content strategy, resulting in improved student engagement and course completion rates

PROJECTS

FashionStore - Full-Stack E-Commerce Platform | React, Node.js, Express, MySQL, Redux, Stripe API

- Developed a production-ready e-commerce platform with secure JWT authentication, role-based access control, and payment processing
- Engineered optimized SQL queries and indexing strategies, reducing product search and filtering time by 30%
- Implemented Redux for centralized state management across 15+ components, ensuring consistent UI state and data flow
- Stress-tested application to handle 500+ concurrent transactions, validating backend scalability and reliability

QuickWings - Real-Time Social Media Platform | *Node.js, Express, React, Firebase, Tailwind CSS*

- Built a real-time social platform with tweet posting, likes, comments, and user profiles using Firebase Realtime Database
- Integrated Google OAuth authentication via Firebase, reducing user onboarding time by 50% and improving conversion rates
- Designed Single-Page Application architecture with React Router, doubling user engagement metrics in beta testing
- Implemented real-time data synchronization and optimistic UI updates for seamless user experience

ACHIEVEMENTS & CERTIFICATIONS

Asian Paints - The Mosaic 2023: Certificate of Participation in national-level design and technology competition

SQL Certification: Completed comprehensive SQL training covering advanced queries, optimization, and database design
